Sri Sukhmani Group of Institutions, a name reckoned with Academic Excellence for more than 4 decades now, has emerged as the leading higher education provider in North India. With branches in Punjab, Chandigarh and New Delhi, SSGI is a home to students from all over India, pursuing graduate and post graduate programs in diverse streams. The Group has a strong alumni network of members and pass out technocrats around the Globe.

The Group has a strong alumni network of members and pass out technocrats around the Globe.

Sri Sukhmani Institute of Engineering and Technology, Dera Bassi.

The very motto of Sri Sukhmani Institute of Engineering and Technology (Dera Bassi) is to provide world class quality education and professional exposure. The process of learning is extremely important in life. Sri Sukhmani Team believes in imparting learning as well as developing ones intellectual and creative capability, besides career.

For more than 15 years now; our graduates and post graduates have been emerging as assets not only to this institution and to the organization they belong, but also to the country at large.

It is heartening to note that the 2014 edition of ‘Achiever’ is getting published. A publication like this one renders confidence in the creativity and writing aptitude of the students and gives them a platform to express their original thoughts.

I congratulate and appreciate the editorial board for their ingenious endeavours.
Foreword - Chief Editor  
Prof. Gurpreet Kaur (Director Technical & Registrar)

Dear Students,

A deep sense of appreciation and joy surged through my heart as SSIE steps into 16th year of its existence. The fertile soil of SSIE has produced, year after year, technocrats making their Alma mater proud.

It is the conviction of the fraternity and guidance from worthy Chairman Prof. Avtar Singh, that SSIE has attained the enviable top position in the plethora of engineering colleges. 'Achiever' - our Newsletter throws light on our achievements and creative talent.

Editor's Message  
Prof. Neha Sawal (Dean PR)

The young minds of SSIEET are an enlightened lot giving me a great pleasure to associate with them in their attempt to express their creative manifestation.

Roman Lyric poet Horace, more than two thousand years ago said that a poet having written a poem, should lock it for ten years and then revise it before publication. The young contributors and the Editorial board of our Campus had an acute paucity of time and a deadline to meet, so could not follow Horace's Advice. Precisely why, we yearn for the indulgence of a sympathetic and considerate reader. Specially to motivate motivating contributors who are publishing for the first time.

I hope and pray that some budding writers may blossom into creative manifestation. The News Letter is the most socially useful, intellectually elevating and spiritually ennobling.

As all of us at Sri Sukhmani Institute of Engineering and Technology, are celebrating 16 Glorious years in providing education and building careers; it comes as no surprise to me that our News Letter is like a mirror to the creative and literary talents of the students.

The News Letter is the most significant publication as it provides emmence opportunity to the students to showcase their creative capabilities.

Foreword - Overall Coordinator  
Prof. Rashpal Singh (Chief Administrator & Head PR)

Having successfully crossed the various hurdles encountered on the way of its growth, SSIE has grown in stature and strength today, and has become one of the finest educational Groups, dedicated to the pursuit of knowledge and excellence. To respond effectively and creatively to the needs of today's society we focus on an educational program which revolves around equipping our students with such qualities of heart and head that they confidently plunge into any field of activity which is socially useful, intellectually elevating and spiritually ennobling.

Sri Sukhmani Group of Institutions pays Musical Tribute to Legendary Singer Late Md. Rafi in 'Rafi ki Yadden'

Sri Sukhmani Group of Institutions in collaboration with Royal Educational Society(R) & SS Entertainers organized a Special and one of its kind Musical Tribute to honor and remember legendary Singer "RAFI" – at RAFI KI YADDEN.

Chief guest on the occasion, Mr. Narinder Kumar Sharma Hon'ble Chief Parliamentary Secretary of Ind. and Commerce,(Punjab) and Guest of Honor Mr. Krishan Pal Sharma Guest of Honour Mr. Harjinder Singh Rangi, Ex-Vice President, Municipal Committee, Dera Bassi,Political Advisor Chief Parliamentary Secretary (Punjab), Guest of Honour Mr. Mukesh Gandhi, Vice President, Bhartiya Janta Party, Distt. Mohali, Special Guest Prof. Avtar Singh, Chairman, Sri Sukhmani Group of Institutions

Dera Bassi, Distt. Mohali, Punjab, Guest of Honour Mr. Rajesh Sharma, E.O. Dera Bassi, Distt. Mohali, Punjab, Guest of Honour Mr. Pankaj Thakur, M.D.A.M.P. Solutions Ltd., Chandigarh, Guest of Honour Sh. Ram Dev (Ex JE) Dera Bassi Distt. Mohali, Punjab, Guest of Honour Sh. Prem Chand, Chairman Sh. Vishavkarma Manav Kalyan Sanstha Dera Bassi, Guest of Honour Sh. Lovekesh Makhiha (Lucky) Social Worker, Dera Bassi, were warmly welcomed by Principals and Deans of all the Institutions of Sri Sukhmani Group.

The Musical Tribute started applauded and appreciated by the Vice President, Bhartiya Janta with lighting of lamp by Chief audience Party, Distt. Mohali, Guest of Institution by bagging the ISTE Best Communication Engineering has brought laurels to the student and the Institute. We all at Sri Sukhmani Publicly recognizing the exceptional achievements of both Institutes.

The Selection Committee constituted at the Chapter level recommended the name of Animesh to receive the Award for his outstanding achievement throughout ISTE chapters. Animesh has also been invited to receive the Award during the Inauguration Ceremony Function of the ISTE Zonal Convention to be held at Rayat Institute of Engineering and Information Technology, Rimalnjor, Near Rupnagar, Distt. Sahibd Bhatag Singh Nagar on Saturday, 26th October 2013.

Prof. Avtar Singh, Chairman Sri Sukhmani Group of Institutions, congratulated Animesh and said, “This award not only provides a showcase for educational excellence by publicly recognizing the exceptional achievements of both the student and the Institute. We all at Sri Sukhmani believe in overall personality development of the students as well as providing quality education.” He also added that Sri Sukhmani Institute recognizes talent, dedication and commitment to excellence.

Sri Sukhmani Student gets ISTE Best Student Award 2013

Animesh Chandra, a student of electronics and communication engineering has brought laurels to the Institution by bagging Best Student Award for the year 2013. The Selection Committee constituted at the Chapter level recommended the name of Animesh to receive the Award for his outstanding achievement throughout ISTE chapters.

Animesh has also been invited to receive the Award during the Inauguration Ceremony Function of the ISTE Zonal Convention to be held at Rayat Institute of Engineering and Information Technology, Rimalnjor, Near Rupnagar, Distt. Sahibd Bhatag Singh Nagar on Saturday, 26th October 2013.

Prof. Avtar Singh, Chairman Sri Sukhmani Group of Institutions, congratulated Animesh and said, “This award not only provides a showcase for educational excellence by publicly recognizing the exceptional achievements of both the student and the Institute. We all at Sri Sukhmani believe in overall personality development of the students as well as providing quality education.” He also added that Sri Sukhmani Institute recognizes talent, dedication and commitment to excellence.
Placement Boom at Sri Sukhmani Institute of Engineering and Technology : Students Euphoric

The Training and Placement Cell of Sri Sukhmani Institute of engineering and technology, Dera Bassi (Affiliated to PTU, Approved by AICTE) has brought unlimited Placement opportunities to Final and pre final students by conducting back-to-back Placement Drives at the college premises.

The Training and Placement Cell invited Oneinfonet & Webastral, Mohali for placement and recruitment of candidates. The placement drive was held for the placement and recruitment of candidates of B.Tech (CSE) and MCA. Continual job prospects to the pre-final and final year students of the college have been created by the Placement Recruiting team of Sri Sukhmani. The team is also inviting prominent companies every month, to the Institute for placements. A campus placement drive was organized by the Training and Placement Cell of Sri Sukhmani Institute of Engineering and Technology, Dera Bassi (Punjab).

For placements and recruitment of candidates, HR officials visited the campus for Pre placement presentation Technical and HR interview, Aptitude and Technical Test, etc. The members of the Placement Cell welcomed the representatives of the company and lectures, industrial visits and project work. The participating students gave presentations on topics like CRIME AGAINST WOMEN and PRICE HIKE.

Investor Awareness Programme at Sri Sukhmani Institute

A special seminar and expert talk on Investor Awareness and fraudulent schemes was organized by the Training and Placement Cell of Sri Sukhmani Institute of Engineering and Technology, Dera Bassi.

The Seminar was conducted by a team lead by CA Mr Gurudev Bassi and the Seminar was inaugurated by Prof. Avtar Singh (Chairman) and Mrs. Kanwaljit Kaur (Director). The Seminar was attended by the faculty and students of MBA and MCA.

Speaking to the students Mr Gurudev Bassi, said, “The primary aim of the seminar is to make the students as well as Faculty aware about various strategies of investments, awareness regarding schemes and alertness about fraudulent schemes. Our seminar cum awareness programme will also highlight Guidance in Planning for investment and Strategies escape frauds in various investment plans. Our team of Experts also aims to guide the first time investors, the ways and means to build confidence specially during first time investment and schemes.”

A number of students and faculty from Sri Sukhmani Institute of Engineering discussed and asked questions on various aspects and practical problems during Investment at the seminar. During his address as Prof. Avtar Singh applauded the Placement Cell for organizing such beneficial events and awareness programmes.

Dr. G. N. Verma, Principal, SSIET emphasized the need for students to be aware of recent investment trends and schemes for saving.

In their interaction with the experts, the faculty as well as the students expressed their satisfaction over the investment plans and strategies escape from fraudulent schemes. Their knowledge about various investment plans is helpful in improving their knowledge about various investment plans.

MAD Fest at Sri Sukhmani Institute of Engineering & Technology

The MBA Department of SSIET organized MAD 2013 (Making A Difference) Management Fest at the Institute campus. Faculty, staff and students of MBA department welcomed the chief guests on the occasion Prof Gurpreet Kaur (Director-technical), Prof Rashpal Singh (Chief Administrator) and Dr. G. N. Verma (Principal). The Students of MBA & BBA course showed their talent in various presentations and competitions. Students participated in Group Discussion, Quiz Competition, AD-MAD SHOW and Power point presentations.

The participating students gave presentations on topics like CRIME AGAINST WOMEN and PRICE HIKE.
Placements Galore at Sri Sukhmani Institute of Engineering and Technology

The Training and Placement Cell of Sri Sukhmani Institute of Engineering and Technology, Dera Bassi (Affiliated to PTU, Approved by AICTE) conducted a Placement Drive at the college premises.

The Training and Placement Cell invited Advance Technologies, Derabassi having its HQ Chandigarh for placement and recruitment. The placement drive was held for the placement and recruitment of candidates of B.Tech (ECE).

Continual job prospects to the pre-fresh and final year students of the college have been created by the Placement Recruiting team of Sri Sukhmani. The team is also inviting prominent companies, every month, to the Institute for placements. A campus placement drive was organized by the Training and Placement Cell of Sri Sukhmani Institute of Engineering and Technology, Dera Bassi (Punjab).

For placements and recruitment of candidates expert from the company, Mr. Vinod Rai (Manager HR) visited the campus for Pre-placements talk, Technical and HR interview. The members of the Placement Cell welcomed the representatives of the company as well as other dignitaries from the Institute. The Campus Placement Drive was inaugurated at the campus of Sri Sukhmani Institute of Engineering and Technology, Dera Bassi (Punjab), by Chairman and Founder Sri Sukhmani Group of Institutions Prof. Avtar Singh, and Director Mrs. Kanwaljit Kaur.

Faculty Development Programme Concludes at Sri Sukhmani Institute

A five-day Faculty Development Programme (FDP) on “ICT based Wireless Communication” organized by Sri Sukhmani Institute of Engineering and Technology, Dera Bassi concluded successfully today at the host Institute today.

Many participants from other Institutions and Sri Sukhmani Institute attended the FDP and gained from the expert talks. More than 40 participants from reputed Institutions and host Institute were invited to attend the FDP. A five-day Faculty Development Programme (FDP) on “Wireless Mobile Communication” concludes at Sri Sukhmani Institute.

Some of the topics covered during the FDP were 3G, 4G, and mobile communication, Nino Systems, Wi-fi Systems, and various security issues were discussed by the experts and the participants. The professors and experts from IITs, Industries, Thapar University, PEC, CSIO (Chandigarh) etc gave expert lectures during the 5-day FDP.

Speaking on the occasion, Prof. Avtar Singh (Chairman) expressed his concern over the quality of Technical education in various colleges. He also appreciated the initiative taken by the Institute in organizing such FDPs and training programmes for the faculty/staff. He also said that the faculty from the colleges will be benefited by the Faculty development programme.

He also praised the faculty and staff members of Sri Sukhmani Institute for the efforts put in over the years in improving the quality of technical education in the region.

Prof. Gurpreet Kaur (Director-Technical) urged the newly recruited faculty to update and upgrade themselves on continuous basis in the changing environment brought about as result of change in technology, communication and social behavior.

Prof. Rashpal Singh (Chief Administrator) applauded the role of teachers in up gradation of recent trends in education. He also advised the members of the faculty to improve their teaching skills and motivate the students to acquire latest knowledge in their chosen fields of specialization. In their interaction with the experts from, the participants expressed their satisfaction over the programme and its utility in improving their quality of teaching.

The Closing ceremony concluded with award of certificates to all the participants.

Harbhajan Mann Enthralls At Freshers Party At Sri Sukhmani Institute

Punjabi Stars and Singers Harbhajan Mann and Sarabjit Singh Cheema and the whole Star cast of their upcoming movie “Hanni” enthralled the audience at the Freshers party – Aagaz 2013 was organized at the wi-fi campus of Sri Sukhmani Institute of Engineering (Derabassi, Mohali). Sri Sukhmani cultural event team organized the party with great aplomb and style. Principal of the college Dr. G.N.Verma welcomed the chief guests Sh. N. K. Sharma (MLA, Dera Bassi) Krishan Pal Sharma (Advisor), Prof. Avtar Singh, Chairman and Director, Mrs. Kanwajit kaur, Dignitaries from press and media, and all the Fresh entrants.

A host of cultural programmes were organized to welcome the new entrants of the college as well as to entertain the staff, students, faculty and other dignitaries. Distinguished guests from media and press were also invited to grace the function.

Students from MBA, Btech., MCA 1st year and second year along with the young participants of 1st and 2nd year presented various song and dance shows and captivated the audience. After lightening of the lamp and formal welcome the girl students from Polytechnic College 1st year presented a Punjabi folk group dance. Solo song performance was also given by students of BTech., BBA, BCA, etc. Thrilling solo dance performance was the main highlight of the show. A hilarious Punjabi skit had the audience in splits.

A number of competitions and modeling rounds were also exclusively held for the fresh batch of students. Both boys and girls were visibly excited to participate in these fun events.

Various titles were also given to winners of the various events.

Title of Ms. Fresher was given to Sarabjit Kaur and the Title of Mr. fresher was bagged by Gurkirat Singh and Esha Chopra got the title of Miss charming. The title of Mr. Handsome was bagged by Ripul Thaman, respectively. A dance party followed the enchanting song and dance performances by students.

Chief Guest, Sh. N. K. Sharma, in his brief address advised the young pupils to pursue their studies with utmost devotion and dedication. He also encouraged them to be ideal technocrats who are ready to serve the nation. Punjabi Star and Singer Harbhajan Mann stressed a right attitude towards Punjabi culture and urged the students to promote Punjabi traditions and culture. He also motivated the young community of students to preserve the Traditions and Culture and not promote vulgarism in movies.

Chairman, Sri Sukhmani group, Prof. Avtar Singh congratulated the earnest efforts of the Sukhmani team in organizing such cultural events which showcase the unity and camaraderie of the students hailing from all parts of north India. He welcomed all the students who joined the Institute from all over India. He also exhorted the student community to strive continuously for a balanced approach in studies and extra curricular activities. The programme concluded with the vote of thanks from Prof. Gurpreet kaur (Director-Technical) who thanked all the guests and dignitaries for their presence.

FDP on “Wireless Mobile Communication” Concludes at Sri Sukhmani Institute

A five-day Faculty Development Programme (FDP) on “ICT based Wireless Communication” organized by Sri Sukhmani Institute of Engineering and Technology, Dera Bassi concluded successfully today at the host Institute today.

Record Placements at Sri Sukhmani Group: Opening Floodgates of Opportunities and Beating Global Recessions

The Training and Placement Cell of Sri Sukhmani Institute of Engineering and Technology has taken the lead by providing glory to the Institute by providing continual job prospects to the pre-final and final year students of the college. The beginning of the year saw major Global slowdown in Industries, but Standard Yellow Pages, OmSatyam reputed firms for campus recruitment. It opens up the floodgates of opportunity specially for the campus placement programmes. The placement cell coordinates quite well with the corporate sector and provides well-developed infrastructure to facilitate the campus selection programmes.

The cell maintains a very cordial relationship with all the recruiting industries and also prepares the recruited candidates to face the competitive world. The institute strives to improve on the available facilities to make the student more equipped for the challenging and competitive corporate world. The institute ensures that the students get the best teachers and mentors for guiding them during interview preparation.

Induction Training Programme on 'Robotics' Inaugurated at Sri Sukhmani Institute of Engineering and Technology

With a view to promote the highly valuable vision of Punjab Technical University - Jalandhar on Faculty Development Program and Induction training ; meant to upgrade/ uplift the existing teaching faculties of affiliated engineering colleges, Sri Sukhmani Institute of Engineering and Technology in collaboration with NITTTR (Chandigarh) has organized a five day Induction Training Programme on ‘Robotics’ at the campus premises (Nodal Centre for NITTTR, Chandigarh). Participants from Various Engineering colleges like RIEBT, Surya World, Ambala College, etc. also took part.

The five day Induction training program is scheduled at SSIEET Dera Bassi campus from 19th August 2013 onwards. Experts from Mechanical Engineering Stream, Faculty and Research Scholars from Mechanical Engineering, Electronics, Electrical engineering participated in the Inaugural ceremony.

On the first day, Dr GN Verma Principal SSIEET welcomed Prof. Avtar Singh (Chairman), Prof. Gurpreet Kaur (Director Technical), Prof. Rushpal Singh (Head, Electronics) and Prof. Firoz Khan (Head, Mechanical). The event delivered the inaugural address advising the participants to put maximum emphasis on upgradation of knowledge and acquisition of modern education.

The overview of the course content was presented by Prof. Mukesh Verma (Coordinator and HOD - ME). The course topics, he said, were evolved in consultation with experts from - NITTTR Chandigarh, Industry Experts and In-House senior faculty members, etc. So that the existing teaching faculties of the participating institutions may get direct benefit of quality education, knowledge, teaching experience and training from the experts to enhance their teaching competence in modern and advanced subjects through educational networking.

The selected subject matter he said, pertains to – Electronics and Electrical Engineering also. He said that the course will be beneficial in highlighting the changing trends and detail of Robotics.

During his address Prof. Avtar Singh applauded the hard work Sri Sukhmani Team in making the Institute one of the top Institutes of the region. He also urged the teachers to update and upgrade themselves on continuous basis in the changing milieu brought about as result of change in technology, communication and society.

The inaugural schedule induction training focused on various expert Talks, discussion with the participants, on line Presentation on the topic, etc.

The participants expressed their satisfaction over the programme and its utility in improving their quality of teaching.

SRI SUKHMANI STUDENTS BRING ACCOLADES BY TOPPING EXAMS

Students of Sri Sukhmani Institute Of Engineering & Technology (SSSET), Dera Bassi have brought laurels to the college by securing top positions in various semester examinations held recently. The Students of B.Tech and MBA and MCA produced outstanding results.

Anushka from Electronics communication got 89% and Roopali got 86.5% in 5th Semester examination. Arun Kanwar from Mechanical branch got 88.33%, Yashi got 86.9% and Anjali from ECE got 86.4% while Jasbir Singh and Pankaj Sharma secured 87.89% and 87.11%, respectively. Kalyani Chauhan got 87% and Mahendra from MCA got 85% in 3rd Semester of B. Tech. and Pranav Sharma got 85% MCA (3rd Sem), Shivi Nand got 87% respectively. More than 80 students of the various branches like Computer Science, Electronics, Electrical, Mechanical, MBA and MCA branches scored more than 70% in the semester examinations.

A total of 11 students from Electrical stream scored more than 70% in the 5th Semester examination. Ravinder Pal Singh got 84.22% and Balraj Singh got 82% respectively.

Chairman Avtar Singh announced cash prizes for all meritorious students.

He congratulated all the Position holders and top rank holders for the achievement and also appreciated the efforts of the faculty and Staff members in guiding the students.
Orientation at Sri Sukhmani Institute of Engineering and Technology

Management, faculty and staff of Sri Sukhmani Institute of Engineering and Technology (Dera Bassi, Distt. Mohali) greeted new students on the very first day of their 2013 batch. After successful completion of 15 glorious years in field of professional and technical education, Sri Sukhmani Institute (SSIET) held ‘13 Orientation programme’ Si Sukhmani Institute of Engineering and Technology (Dera Bassi, Distt. Mohali) campus. Fresh –entrants from all the branches of MBA, MCA, BBA, BCA and Engineering, i.e; Computer Science, Civil Engineering, Electronics & communication, Electrical engineering, Mechanical engineering ,etc were welcomed at the WI-Fi campus of the college. Students hailing from all the parts of the country and abroad visited the college to be a part of Sri Sukhmani Family. Students, parents and guardians were visibly excited at the encouragement from parents and guardians were also said that the support and co-curricular activities in the college. Students hailing from all parts of the country and abroad to work hard with utmost devotion and aspects and abilities of their young tours of the WI_FI campus and residence halls, labs, library, workshops etc. Students were also apprised with various departments of CSE, EE, Civil, ME, ECE, etc, seminar halls, labs, conference rooms, tutorial rooms, library, workshops etc. Students were also briefed with all the rules and regulations of the college and the University. The Orientation included tours of the WI_FI campus and residence halls; Parent-teacher discussions on academic and student life; small group sessions on topics such as financial aid and student welfare program; an information fair with representatives from various branches; and registration for classes with help of a staff advisor each. For many students, it was a chance to meet new classmates, to-be teachers ,mentors and even find a roommate. For parents, it was also a golden opportunity to explore career options, Hostel life , Bank and Medical facilities , face to face interaction with the teachers and Management, etc.

Chairman Prof. Avtar Singh, in his welcome address, congratulated the students for joining one of the oldest educational Institutions of Punjab. He also urged the students to fulfill their dream of becoming shining stars in the Global competitive world with dedication and hard work. Prof. Avtar Singh, also advised the young entrants to work hard with utmost devotion and dedication in pursuit of their goals. He also said that the support and encouragement from parents and Institution will give crucial help in overcoming bewildering thoughts. He also interacted with parents/guardians during the orientation.

Principal Dr.G.N.Varma said, “ Sri Sukhmani orientation program has always been more than a cursory introduction to the Institute. It provides an introduction and guidelines to new students and families – an overview of what to do and what to expect. In pursuit of chairman’s vision the Institute offers an educational program to foster maximum holistic development of the students.”

Prof. Gurpreet Kaur (Director-Technical) in her close interaction with the first year students, advised them to imbibe traits of honesty and respect for a successful career ahead. She also motivated them to reinforce the strengths, positive aspects and abilities of their young mind through a host of educational and co-curricular activities in the college. She also encouraged them to have aspirations to become all round achievers in the respective field.

SSIET NEWS

SSIE organizes FDP on “Cloud Computing” in collaboration with NITTTR

A five – day Faculty Development Programme (FDP) on ICT based “Cloud Computing” was organized at the campus of Sri Sukhmani Institute of Engineering and Technology, (Dera Bassi) in collaboration with ‘National Institute of Technical Teachers Training and Research (NITTTR, Chandigarh).’ Various faculty members from the Institute and various other colleges in the region participated through Video Conferencing and live through YouTube.com. The FDP was specially conducted for the Faculty members of Computer Science, MCA, ECE, etc.Prof. Avtar Singh (Chairman) and Mrs. Kanwaljit Kaur (Director) inaugurated the FDP at the Institute Campus centre by lighting a lamp. Prof.Avtar Singh welcomed the experts from NITTTR and thanked them for throwing light on various topics. During his address as Prof.Avtar Singh applauded the hard work Sri Sukhmani Team in making the Institute one of the top Institutes of the region. He also urged the teachers to update and upgrade themselves on continuous basis in the changing milieu.

In this orientation programme students were apprised with various departments of CSE, EE, Civil, ME, ECE, etc, seminar halls, labs, conference rooms, tutorial rooms, library, workshops etc. Students were also briefed with all the rules and regulations of the college and the University. The Orientation included tours of the WI_FI campus and residence halls; Parent-teacher discussions on academic and student life; small group sessions on topics such as financial aid and student welfare program; an information fair with representatives from various branches; and registration for classes with help of a staff advisor each. In science, cloud computing is a synonym for distributed computing over a network and means the ability to run a program on many connected computers at the same time. The popularity of the term can be attributed to its use in marketing to sell hosted services in the sense of application service provisioning that run client server software on a remote location.” The 5 day schedule for FDP will focus on various expert Talks, discussion with the participants, on line Presentation on the topic, etc. The 5 th day will conclude the FDP with discussion, Course evaluation and valediction.

In their interaction with the experts from NITTTR, the participants expressed their satisfaction over the programme and its utility in improving their quality of teaching.

SSIET Starts Vocational Courses in Automobile, IT and Communication

Sri Sukhmani Institute of Engineering and Technology, Dera Bassi and Sri Sukhmani Polytechnic College (Dera Bassi) have started new vocational courses in Automobile, IT and Communication Sector.

The Institutes have started the new courses in various specialization of Engine Testing , Software development , Mobile communication and Vehicle testing .The certified courses come under NVEQF (National Vocational Educational Qualification Framework as a SKP (Skill knowledge Provider) .SKP will provide practical and Hands on training in honing the skills in a specific sector and specialization.

The courses are approved by AICTE and the certificates will be issued as per the performance evaluation and Vocational Skill credits .Graduate level courses will be approved by Punjab Technical University ,10+2 and 10 level courses will be approved by Punjab State Board of Technical Education. All the courses require a minimum level of 1000 hrs of education and training simultaneously for one year. The skill module and course Module varies from each course and requirement of the candidate.

Chairman and Founder Sri Sukhmani Group of Institutions Prof. Avtar Singh, said, “ The courses will help the students in getting various skills at practical level and will give them good knowledge as well as skills to work efficiently. A certification in the Specialized field will aid in getting good jobs for even a students who is just 10 th pass. The courses will enable good skill testing and training even at the school level”
Successful Conduct of 'Industry & Educators Symposium' at Sri Sukhmani Institute

Sri Sukhmani Institute of Engineering and Technology organized a one of its kind Industry - Institute interactive conference titled ‘Industry & Educators Convention – A Symposium’. The host Institute, Sri Sukhmani Institute of Engineering and Technology invited delegates, scholars, experts from academia & Industries and participants for successful conduct of the conference. The aim of the symposium was to provide a common platform for experts from Industry and Academia & Industries to come together to discuss career enhancement and improvement of employed/unemployed youth. The Symposium was inaugurated by Chief Guest on the occasion Sh. N.K. Sharma (Chief Parliamentary Secretary, Punjab) at Sri Sukhmani Institute of Engineering and Technology in collaboration with NK Sharma Group of Companies took this ‘employment initiative’ for giving scope to the unemployed youth to become employable.

Prof. Avtar Singh, (Chairman Sri Sukhmani Group), in his brief address said, “We all at Sri Sukhmani have always believed in serving the society and working tirelessly for the welfare of the students and by organizing such an event we wish to give ample career opportunities to unemployed but promising youth of Punjab. We have taken this leap for serving the society as this venture will help channelize the energy of the Young minds in Punjab.” Chief guest on the occasion Sh. N.K. Sharma (Chief Parliamentary Secretary, Punjab) remarked, “We believe in career enhancement of the Youth. The Symposium will provide a platform to the unskilled/under-qualified youth of Punjab with numerous training courses and vocational opportunities under one roof. The conference will also bring awareness regarding various career development certificate courses available for the students. A large number of unemployed youth will take advantage of this Symposium. The real gain of this Symposium has been the realization that there is vast employment and entrepreneurial potential available that could be tapped and developed through appropriate training intervention.

Splendid Performance by Jazzy - B at “Lamhe -2013”

Sri Sukhmani Institute of Engineering and Technology organized Techno-Cultural Fest –Lamhe 2013, at the College Campus.

The Cultural extravaganza was followed by Star Nite by Famous Punjabi International Singer Jazzy – B. Numerous Dignitaries, VIPS, Media representatives, Press members and guests from other colleges also attended the Function to cheer –up the students and motivate the participating teams.

The Chief guest on the occasion Paramjit Kaur Landran (Chairperson of Punjab State Women Commission) and Mrs. Kanwaljit Kaur (Director, Mrs. Kanwaljit Kaur) warmly greeted the Chief as well as all the special guests, parents, teachers, Principals and other distinguished guests who attended the Function. The Chief guest Paramjit Kaur Landran, while addressing the gathering, emphasized the importance of Participation in Co-Curricular activities along with studies. She congratulated the Cultural Events team for organizing the Grand Cultural Show. Prof. Avtar Singh, Chairman Sri Sukhmani Group and Director, Mrs. Kanwaljit Kaur warmly greeted the Chief as well as all the special guests, parents, teachers, Principals and other distinguished guests and welcomed them with Garlands and bouquets. The Chief guest Paramjit Kaur Landran, while addressing the gathering, emphasized the importance of Participation in Co-Curricular activities along with studies. She also urged the Youth to keep the ‘Punjabi’ tradition alive by performing on folk songs and dances. She congratulated the Cultural Events team for organizing the Grand Cultural Show. The Cultural Events team for presenting the Grand Cultural Show. The Cultural Events team for organizing the Grand Cultural Show. The Cultural Events team for organizing the Grand Cultural Show.

Chairman, Prof. Avtar Singh during his brief address encouraged the young participants to put in their best foot forward and exhibit talent, team spirit and unity. Director, Mrs. Kanwaljit Kaur encouraged the young performing teams as well as the organizers to perform with zeal and devotion. Under the expert guidance of Prof Gurpreet Kaur (Registrar) a number of events were held simultaneously during the day long celebration. Students from all the streams of Sri Sukhmani Institute of Engineering and Technology participated and enjoyed the cultural extravaganza. The Gala event concluded with colorful fire-crackers by the Sri Sukhmani Cultural Events Team.

Farewell Party at Sri Sukhmani Institute: Bidding Adieu to the Final year students

The students, faculty and staff members of Sri Sukhmani Institute of Engineering and Technology, Dera Bassi, bid adieu to the Final year students at a farewell party organized by the Institute and attended by Final Year students belonging to various streams of B.Tech, MBA, MCA, etc. The pre final year students welcomed the Chief Guests on the occasion. Prof. Avtar Singh (Chairman) and Mrs. Kanwaljit Kaur (Director) with bouquets and garlands.

Various events like Solo Dance, Group Song, Western Dance, etc were organized at the Farewell Party. A special contest for the Title of Mr. Sukhmani and Ms. Sukhmani was also held during the function. Various rounds of Ramp walk and question answer were held.

A Dance party was also organized and the students and they enjoyed and danced during the Dance Party. While addressing the Final Year Students, Prof. Avtar Singh (Chairman) said, “I congratulate all the final year students for completing their degree in one of the pioneering and oldest colleges of the region. Its a proud moment for all of us at Sri Sukhmani where most of the final students are placed in top Companies all over India. I wish them best of luck as young corporals and technocrats. As proud Alumni of Sri Sukhmani, I am sure they will always remember the motto ‘Service before Self’ throughout their life.

The Final year students also remarked, “We all are very thankful to the Institute for providing us with best of the facilities and technical exposure during our stay in the Institute. All of us are also very grateful to the Training and Placement Cell for giving us the placement opportunities in Top MNCs. All of us are nostalgic today and it’s difficult to accept that our college life has come to an end. We’ll miss our college days.”

Sukriti, a third-year student said, “Our seniors are special to us. They have helped us a lot. So, we made sure this party was special too. We want the seniors to speak about the best memories of the college life. When the college began the academic year, our seniors welcomed with a fresher’s party. It’s our turn now to bid adieu to our seniors with farewell party.”

The students of final year, dressed in Formals, enjoyed the food, music and games at the Farewell party.
I am in love ......with my pain

People say I can write and am a good writer, I don’t know how far this is true. The very best work I have crafted has come as a result of the pain I’ve felt in my own life, or from seeing pain affect the life of someone for whom I care deeply. Because it is pain that makes the heart break open, and an open heart is necessary for writing. A writer must be able to then translate pain—his own or another’s—into compassion. As soon as compassion begins, so can creation and using pain as fuel for a good writing we not only teach ourselves to feel compassion, but we also learn to craft stories that house the most authentic of all emotions and actions: LOVE The actual opposite of pain is “no pain” — i.e. comfort. And while comfort may be very nice, it is not the ultimate pleasure. A person who goes through life chasing comfort will be very disappointed at the end - because if you spend your life avoiding pain, you will also avoid the deepest pleasures. As much as everyone tries to minimize pain in life, the fact remains that pain is unavoidable. Everything has its ups and downs. Therefore, if we want to succeed in life, the key is not to eliminate pain entirely (for that is impossible), but rather to learn how to understand and accept the pain and finally grow from it.

Pain is the price we pay for pleasure. All of life’s lasting pleasures - good relationships, successful careers, the pursuit of meaning - require a lot of effort to achieve. Real pleasure is inseparable from pain. Often, the fear of pain is worse than the pain itself. An inoculation takes all of one second, but ability to handle any situation, to be able to face any crisis and to be able to make your own unique identity against all odds. We all choose to escape, now and then, from the effort that’s involved in accomplishing our dreams, our aspirations. We all want to be great; we all want to change the world. It’s just that we don’t always feel like putting forth the effort. So we distract ourselves and escape from who we really are and what we want to achieve. There is no need to run away rather look deep in your own self and try to create that urge of being accepted and live life to the fullest with all pains, all odds cost that will make you all together a different and unique person. So come accept your pains and love yourself and you’ll be the BLESSED one to stay happy and being accepted.

Prof. Gurbpreet Kaur
(Director Technical & Registrar)

Are We Religious?

Religion, why the word reminds most of us only the ringing of bells, idols, temples, observing fast or just similar? Whenever I ask this to my students, every other the often person jumped to the conclusion-So you are an atheist. I always regarded God as a supreme power, governing the whole universe. But my God is altogether formless & shapeless, that’s why I cannot confine Him to a particular object. But I can be a beautiful work of art for me but it never made me non-believer.

Sometimes I am amazed to see that we have molded religion according to our convenience instead of changing ourselves. I never found people our so called religious people to be contributing towards social projects.

About religion we never try to be experimental, I should go to temple because I am born as Hindus. Why it is so? While selecting our professions, we apply our own judgment and experience then why stuck to a worn-out belief only because our ancestors did! If only we try to be a little innovative and courageous, religion can mean much more to us then to rang a bell in temple or light a candle in church. According to the prevalent meaning of religion, how easy it is to be religious. You can continue with your misdeeds, you may lack in common human values, you may hurt anyone , nourish your ego; the only thing you require is to cram some verses from any religious book or be regular in your visits to religious places. Strangely, you are religious if you visit religious places regularly, no matter if you are going there just to demand something from your dear loving God. If we think over it for a moment how many of us go to temple or church or any religious place to say thanks to God, to show our gratitude for all the things He has granted us without our wishing? We opine that He is omnipotent, He can fulfill all our wish or desire. Why don’t you give, can’t He know what we want? Religion always tries to bind us; tries to put us under their own judgment of brotherhood and of the purifications of our souls. But to practice these values in life is considered ‘next to impossible’ by most of our religious people. If only they realize that they can’t bear the shame of being non-religious too.

After all, we are all innovative in a way or other, so religion has its own meaning & means for every person!!!

Dr. Seema (DAA)

MEDITATION: A PATH TO ENLIGHTENMENT

Despite all its popularity today very few of us truly know what Meditation is. Some regard meditation is the mental concentration on something; other considers that we meditate when we imagine something that gives us peace or satisfaction. In reality, meditation is a state of “THOUGHTLESS AWARENESS”. It is not the art of Doing, it is a state of awareness, we either in this state or we are not, regardless of what we are doing in life. True meditation, however is much more than this. It is a state Of Profound deep peace that occurs when the mind is calm and silent, yet completely alert. This is just the beginning of an inner transformation that takes us to higher level of awareness. This enables us to fulfill our true human potential.

Meditation can be effective form of stress reduction and has the potential to improve quality of Life and decrease healthcare costs. Meditation is effortless and leads to “THOUGHTLESS AWARENESS” In which the excessive stress producing activity of the mind is neutralized without reducing alertness and effectiveness. Authentic meditation enables one to focus on the present moment rather than dwell on the uncontrollable past. One should meditate everyday for at least 30 minutes.

Meditation is a deceptively simple process and takes the form of sitting quietly to allow the flow of SPIRITUAL ENERGY and leaves the person in a profoundly peaceful and relaxed state. Going deeper in meditation is not something that we can force along. Over the practice meditation produces profound emotional, Physical and spiritual changes which give each of us the ability to maintain a remarkable degree of Control over the progress of our lives very-way.

Prof Rashpal Singh
(Chief Administrative Officer and Head Public Relations)

MY NEW LIFE, MY NEW WORLD- MY COLLEGE

PYUSH MISHRA (ECE IV SEM)

Each one of us enter our college life with a lot of aspirations, dreams and expectation. Leaving the school life behind, we enter a new life. With the word SCHOOL removed from our life and being replaced by COLLEGE everyone of us fell like more grown up and natural.

A day before the first day of the college. Most of us get sleepless nights because of the excitement. The first day everyone is excited to meet the new classmates, new teachers and get know what college life is all about. Everyone put their first step to the college life with the desire of setting a good first impression in front of the teachers, some are able to do so and some fail in attempt.

We get mixed slowly with all the students coming from different parts of the country. Some students slowly get mixed in the class like sugar in water and there are also some who are like sand in water for whom mixing up is little difficult task. As the time passes a great unity is developed in some classes and some get divided into groups, student makes their own groups with the ones they like.

After getting little used to the college life everyone of us start enjoying it unlike what we felt at the beginning of the college life our shyness fades away and we become a full DABAANG.

Slowly the days come when we get the date sheet of the sessionals in order to give our best effort and score well some feel pressurised and others who are somehow like me still feel like a free bird. In short though there are some ups and down in college life in the end I could say college life ROCK.

“ANYWAY”

People are often unreasonable and self-centred
Forgive them anyway…
If you are honest, people may be jealous,
Be happy anyway…
The people you respect, may not approve your respect
Give respect anyway…
If you find happiness, people may be jealous
Be happy anyway
If you work with enthusiasm, people may reject your efforts
Make your efforts anyway
The good you do today, may be forgotten tomorrow.
Do good anyway…
The people you care for may not appreciate your affection
Love them anyway…
If you approach for help, people may avoid you
Be an inspiration anyway
When you are alone, people may discourage you
But have faith anyway
If you lose everything in your life
Don’t lose hope anyway
Give the world the best you have and it may never be enough…
Give your best anyway…

Development Experience Of India, Pakistan & China: A Comparative Study

By Ravinder Ravi ME

India, Pakistan and China are the neighbouring countries. All the three countries have treaded the path of growth and development for nearly 60 years. In this we will compare the developmental strategies pursued by India and two of its neighbouring economies Pakistan and China. Their achievements and failures are diverse, beside the strategies pursued by these three countries. Experience of these countries offer a lesson to each other in the context of economic growth and social development. This is an attempt to study in reference to the indicators of comparative development, as these: Gross Domestic Product (GDP) Growth Rate, Structure of growth in terms of sectoral share in output and employment, Demographic Profile, Human Development.

After independence in 1947, India and Pakistan embarked upon Plan Development Programmes whereas People’s Republic of China in 1949 decided to bring all critical areas of production activity under governmental control. Great Leap Forward (GLF) campaign was launched in 1958 focusing on widespread industrialization of economy. China adopted statism which give ownership of all resources to the state who has to decide what to produce, how to produce & for whom to produce whereas, India & Pakistan adopted mixed economy for growth. In early 1980’s in China, mid 80’s in Pakistan & early 90’s in India a GDP of 8-9% was achieved.

According to report of World Economy India & Pakistan have lagged behind whereas China has become the 2nd largest economy in the world. All the three countries have experienced a noticeable structural transformation. In terms of sectoral contribution to GDP economies of India & Pakistan are more relying on the Tertiary sector whereas China's economy relies on Secondary sector. Manufacturing from China is invading Global Markets while India & Pakistan are lagging behind. In terms of employment, the shift from primary to secondary and tertiary sectors has not been so significant in India as compared to China & Pakistan. Its like an economy slipping into a ‘jobless growth process’.

China is a habitat for nearly 1.34 billion people that is nearly 20% of the world’s population. India is a habitat for 1.2 billion people that is nearly 16% of world’s population. Together India & China are a habitat for nearly 36% of the world’s population.

In comparison Pakistan’s population is 1/10th of China & India. Both for India & China, large size of population is a hindrance in process of growth, as it requires a huge amount of ‘maintenance investment’- investment which is directed towards the maintenance of existing standard of living of people. High ‘maintenance investment’ implies low ‘development investment’. Two demographic parameters are in favour of China: Moderating growth rate of population & Low density of population. ‘One Child Policy’ adopted by China in 1979 has been successfully pursued. Growth Rate of Population of India is 1.7% & Pakistan is 1.8% as compared to 0.47% per annum in China.

Human development plays a very important role in a country’s economic growth. Some important factors of Human Development are: Life Expectancy- higher the better, Adult Literacy Rate- higher the better, Percentage of population below poverty line- lower the better, Infant mortality rate- lower the better, Maternal mortality rate- lower the better, Percentage of undernourished population- lower the better, GDP per capita (US $) adjusted for the differences in purchasing power of a dollar across different nations- higher the better. Based on these indicators, a composite index is constructed called Human Development Index (HDI).

THE RHYTHMIC JOURNEY

On divine mystic lands of Indian shores.
There was a beautiful flock music that scored.
There were songs for all days and nights
For happiness, sorrow, love and despair.
There was song for all those who cared
There were few who sang on street and shared.
When 1960’s made a shop, there was new kind of music called rock.
The rock was heavy and strong with all strings and beats
And pop was not behind to establish its feet,
In the budding mind and pumping bloods of youngsters.
And then came the music which they said was for thugs and gangsters
They say there is big huge developing generation gap
What old generation could not get, the new called it rap
There were Eminem, Lil Wayne and dearest yo yo honey singh
One may say things but man they could really sing
There are so many songs of so many kinds
There are food for your soul and gift from divine
I say they all are there for same one thing
They just want you to be happy and sing

Shashank Kumar Atray, Student Editor (CSE IV Sem)

RECIPE FOR FRIENDSHIP

Fold two hands together and express a clash of sorrow,
marinade it over night and work on it tomorrow.
chop one grudge in tiny pieces add several cups of love,
dredge with a large sized smile mix with ingredients above.
dissolve the hate within you by dying a good deed,
cut in and help your friend if he should be in need.
stair in laughter, love and kindness From the heart it has to come,
toss with genuine forgiveness and give your neighbour some.
the amount of people served will depend on you,
it can serve the whole wide world if you really want it to!!
Munish Saini (Ece, IV Sem)

BELIEVE IN YOURSELF......
You are your greatest asset,
There is nothing you cannot do.
No one can keep you from dreaming.
Only you can stop them from coming true.
Your achievements are determined
By the desire that you possess.
Believe in who you are,
Believe in what you do.
It is not a quirk of fate,
It is strictly up to you.
Mohammed Faheem Student Editor (ECE First Year)

DON'T QUIT

When things go wrong as they sometimes will,
When the road you were trudging seems all uphill
When funds are low and debts are high,
and you want to smile, but you have to sigh
When care is pressing down a bit
Rest, if you must, but don’t you quit.
Life is queer with its twists and turns,
as every one of us some times learn.
And many a failure turns about
when he might have won stuck it out,
Don’t give up though the pace seems slow.
You may succeed with another blow
Success is failure turned inside out,
The silver tints of the cloud of doubt,
and you never can tell how close you are,
It may be near when it seems so far,
So stick to the fight when you are hardest hit.
Its when things seem worst that you must not quit.
Kislav (Me., IV Sem)
